## Fantastic Kitchen Facelift

Design: EURO Design | Build | Remodel

Location: Flower Mound

Project Cost: Approximately \$70,000

While the owners of this Flower Mound home did not want to change the footprint of their spacious kitchen, they felt that it definitely needed a makeover. They called in the experts from EURO Design | Build | Remodel, who devised a plan that took the space from ordinary to outstanding. The team designed a custom-built armoire and refrigerator panels to match the kitchen's new custom cabinets, which feature an environmentally friendly furniture-grade finish, and are enhanced by Xenon under-cabinet lighting. Antique leaded glass panels were included in the cabinet design to offer some variety and visual interest. In addition to spice rack pullout shelves installed above the cooking range, a custom updraft hood was placed where there once was none. A travertine tile backsplash featuring an elegant mosaic was perfectly complemented by the selection of 3 cm Juparana Sinatra granite countertops. And with a refinished wood floor, an enlarged 8' by 42" island and all new stainless steel Kitchenaid appliances, it's no wonder why the kitchen solidified the home's place on the NARI Remodeled Homes Tour, being held Oct. 24-25. After the tour is complete, the owners will be able to enjoy this updated and refined kitchen space for many years to come.
